

# St Endellion Parish Council Reserves Policy

## 1. Purpose

- 1.1 St Endellion Parish Council (SEPC) is required to maintain adequate financial reserves to meet its needs. The purpose of this policy is to set out how the Council will determine and review the level of reserves.
- 1.2 Sections 32 and 43 of the Local Government Finance Act 1992 require local authorities to have regard to the level of reserves needed for meeting estimated future expenditure when calculating the budget requirement. However, there is no specified minimum level of reserves that an authority should hold and it is the responsibility of the Responsible Financial Officer to advise the Council about the level of reserves and to ensure that there are procedures for their establishment and use.

## 2. Types of reserves

- 2.1 Reserves can be categorised as General or Earmarked.
- 2.2 Earmarked reserves can be held for several reasons:

Renewals – to plan and finance a particular project, an effective programme of capital equipment replacement and planned property maintenance. These reserves are a mechanism to smooth expenditure so that a sensible programme can be achieved without the need to vary budgets.

Carry forward of underspend - some services commit expenditure to projects, but cannot spend the budget in year. Earmarked reserves are used as a mechanism to carry forward these resources.

Insurance reserve – to enable the Council to meet the excesses of claims not covered by insurance.

Other earmarked reserves may be set up from time to time to meet known or predicted liabilities.

- 2.3 General reserves are funds which do not have any restrictions as to their use. These reserves can be used to smooth the impact of uneven cash flows, offset the budget requirement if necessary or can be held in case of unexpected events or emergencies.

## 3. Earmarked reserves

- 3.1 Earmarked reserves will be established on a “needs” basis, in line with anticipated requirements.
- 3.2 Any decision to set up an earmarked reserve must be given by the Council.
- 3.3 Expenditure from earmarked reserves or the reallocation of unused earmarked reserves can only be authorised by the Council.

- 3.4 Earmarked Reserves should not be held to fund ongoing general expenditure. Earmarked reserves that have been used to meet the use for which they were established or have been reallocated by resolution of the Council are not to be replenished, having served their purpose.
- 3.5 All earmarked reserves are recorded on a central schedule held by the Responsible Financial Officer which lists the various earmarked reserves and the purpose for which they are held.
- 3.6 Reviewing the Council's Financial Risk Assessment is part of the budgeting and year end accounting procedures and identifies planned and unplanned expenditure items and thereby indicates an appropriate level of Reserves.

## **4. General Reserves**

- 4.1 The level of general reserves is a matter of judgement and so this policy does not attempt to prescribe a blanket level. The primary means of building general reserves will be through an allocation from the annual budget. This will be in addition to any amounts needed to replenish reserves that have been consumed in the previous year.
- 4.2 Setting the level of general reserves is one of several related decisions in the formulation of the medium term financial strategy and the annual budget. The Council must build and maintain sufficient working balances to cover the key risks it faces, as expressed in its financial risk assessment.
- 4.3 If in extreme circumstances general reserves were exhausted due to major unforeseen spending pressures within a particular financial year, the Council would be able to draw down from its earmarked reserves to provide short term resources.
- 4.4 Even at times when extreme pressure is put on the council's finances the council must keep a minimum balance sufficient to pay one month's salaries to staff in general reserves at all times.

## **5. Current level of financial reserves**

- 5.1 The level of financial reserves held by the council will be recommended to the Council by the Finance and Car Park committee as a result of discussions held regarding the setting of the budget for the next financial year.
- 5.2 The current level of general reserves to be held by the council is 3 months' normal expenditure.  
  
This figure is approximately £45,222 for the financial year 2019/20.
- 5.3 The council does not currently have any level of earmarked reserves.

Adopted by Council on 11<sup>th</sup> March 2019
